

## PAN - EXPO 2015

As one of the world's top student host-cities, Montreal's international students come from all four corners of the world. Expressing multi-dimensional diversity these students share one thing, their place here in Montreal.

In the spirit of Expo 67, Pan-Expo is a permanent exhibition for these students, as the two islands come together in the spirit of Pangaea, our planet's original continent, the land is transformed into one hub where students can come together to initiate a multicultural dialogue exchanging ideas, market values and traditions.
